

It is the policy of Alpha Rail Limited to establish and maintain an effective and efficient Quality Management System, planned, and developed in conjunction with all management functions.

This system shall, as a minimum, comply with the requirements of BS EN ISO 9001:2015, and will be periodically monitored to see if any improvements can be made.

This policy statement sets out the means of providing for all its customers all types of fencing, gates, Juliet balconies and guard-rail systems that meet the requirements of customer needs and expectations and all applicable national or international standards.

The Directors supported by the managers all accept these responsibilities and expect all employees to co-operate with the company to carry this policy through. Alpha Rail's Business Objectives have been defined; our Strategic Direction covers working in two product sectors these being:-

- Products that comply with BS1722, BS7818 and or NHSS 2A
- Products that are not required to comply with the above standards

Not only is the policy sound and commercial practice it is also a positive attempt to minimise the effect of the product liability by recognising the need to control the Company's Quality Assurance activities at all stages during manufacture and installation.

Alpha Rail Limited shall ensure that this policy is understood, implemented, and maintained at all levels of the organisation by Quality Awareness Training.
